-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/15/05 has been entered.

Response to Arguments

2. Applicant's arguments with respect to claim 2 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claim 2 recites the limitation "the vertical backing member" in lines 10 and 12. There is insufficient antecedent basis for this limitation in the claim. The vertical backing member has been construed to refer to the vertical support member for the basis of art related rejections

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Greene, US Patent 4,463,859 in view of Ziaylek, Jr. et al., US Patent 4,848,714 (Ziaylek).

Green discloses a support system stand comprising a support base (26) having a supplemental lower plate (28) and a vertical member (30), a bottle retaining brace including a horizontal resting plate (32) coupled to the vertical member of the support base, the bottle retaining brace having a horizontal support member (34) coupled to the vertical member of the support base at a position superior to the resting plate. However, Green does not disclose the bottle retaining brace including two spaced bolts for vertically adjustable coupling to the support base. Ziaylek teaches within the same field of endeavor of container holders the use of two spaced bolts (27) for vertically adjusting the bottle retaining brace to the support for the purpose of accommodating bottles of varying lengths (column 3, lines 59-60). It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the two bolt, adjustable configuration as taught by Ziaylek with the device of Greene in order to provide for a retaining brace capable of supporting bottles of varying sizes.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly S. Smith whose telephone number is 571-272-6909. The examiner can normally be reached on Monday thru Friday 10:00-4:00.
